

ABOUT ME

Bachelor's Degree in Music and Technology, National University of Quilmes. Developer, educator, CONICET research fellow. Knowledge in development, research, and production in specific areas of computing applied to new technologies and audiovisual art. I am constantly working with new languages such as Python, JavaScript, C#, and C++, while gaining experience in technologies like HTML, CSS, Node.js, Unity, and SQL and NoSQL databases. I am eager to continue my professional development and wish to contribute my knowledge and tools through collaborative work. I consider myself a creative, proactive, and solution-oriented person.
